

Bea Tran

Garland, TX, 75040

Phone Number: (214) 557 - 2922

Email: trancalhai@gmail.com

Objective:

Dedicated to providing effective and memorable client experience, with an emphasis on teamwork and communication. I am ready to tackle varieties of challenges all while using an open mind towards collaborative perspectives.

Education:

Dallas College Richland Campus, Richardson, TX

Fall 2022 - Spring 2025

Bachelor's Degree in Computer Science

Technical Skills:

Programming Languages & Operating Systems: Python, Java, C#, C++, Windows 10 & 11

Programs: Microsoft Office, Excel, IntelliJ IDEA, Eclipse, Visual Studio

Work Experience:

Online communication & growth (TFQ)

Jan 2025 - On-going

Taken aboard a start up to help develop its growth both online as a brand and as an ambassador for the project within its own community. Had to deal with various scenarios of issues along with cases of where both discretion and transparency was needed. Provided all of these roles and more whilst communicating with the current dev team.

Remote support staff (DG Media and Gaming)

Taken aboard an online start-up as remote support staff for issues involving dev work or basic tickets. This had ranged from tickets involving issues with the project itself or other members being problematic along with promoting social media and performing advertising for social media.

Freelance Food Catering

Sept 2024 - 2025

A commission food service where I prepare and cater a variety of dishes for events, as well as plan and provide more personal multi-course meals. Alterations to menu options based on client's dietary needs or sensitivities are provided with safety standards and care.

Waiter/Hostess 보빠이 (Bop-pai) Restaurant

Jan 2022 - July 2023

Provided attentive and efficient service to customers. Committed to representing brand image and specialty sales. Adept at multitasking in high-pressure situations.

Projects:

Online Server Support Support Technician

Sept 2023 - March 2024

Provided open server hosting and client support for multiple online services. Analyzed and solved performance issues for clients. Collaborated with other engineers to maintain server stability.

Independent Game Project Programming Developer

Sept 2020 - July 2021

Developed scripts to automate computer tasks and actions using Python. Programmed game's user-interactive functions using Java, C#, and C++. Collaborated with team members to meet planned goals and complete assigned tasks.
